

Almkotter 15.00

AK

The smaller brother of the 16.70. Seaworthy and brave. With its fixed wheelhouse ideal for longer trips. Offers a huge amount of sleeping and living space and a very nice appearance. 5 mm plate is used for the sub-chip and 4 mm for the superstructure. Of course, the ship will be completely finished. You will be in charge of the layout, upholstery and wood to be used (according to your wishes: teak, mahogany, cherry, ash). Also the complete technical installation, the motorization, the painting in 2 components (color of your choice) and the electrical installation are carried out to perfection for you on a high level of finishing.
