

The Zeelander 7 was launched in March 2019 and is now the Zeelander flagship. With her platform extended she is 22 meters, making her the largest Zeelander ever.

The Zeelander in-house design team created the exterior of the yacht in collaboration with Cor D. Rover. An S-Shaped deck line, a wider stern and even more curved surfaces. The exterior design was inspired by the way Porsche has incrementally evolved its designs over time. A legendary icon is what we envision for the Zeelander 7.

Zeelander Yachts approach to the design is unique. We actively involve current owners in the development process of future models. This was also the case with the Zeelander 7. The Zeelander 7 is much bigger than the previous flagship, the Zeelander 5, as it blends stylish appearance with some truly unique superyacht features. The new model's length is 20.2 meters and it surpasses 22 meters with a large swimplatform open, while her beam measures 6 meters. There is plenty of deck space and she hits the home-run on Zeelander owners' priorities – a comfortable, luxurious and family – friendly boat that complies with the latest standards.

The interior design of the Zeelander 7 is made entirely by the Zeelander Yachts in-house team. Just like her smaller sister, she has a sophisticated décor, huge panoramic windows and vast social areas for the best possible guest experience on board. The shipyard's creations epitomise not just style, but power too. The Zeelander 7 carries the same sporty DNA as the earlier models of the brand. Her top speed exceeds 40 knots.

Specification

Lengte	20-25
Lengte scheepsromp	22,07m
Gewicht	42.000kg
Diepgang	1,45m
Breedte	6m
Maximum snelheid	40kt
