

Van den Hoven Voyager 71

The size is likely to be very popular among couples who want to sail a compact yacht with crew as it offers the luxury and comfort of a superyacht but is much easier to handle and more versatile. Moreover, the Voyager 71 will be built entirely in aluminium to ensure all the requirements of owners can be realised.

The Van den Hoven Voyager 71 is a concept, therefore not all information is included.

Specification

Lengte	20-25
Materiaal	Aluminium
